

Mapping Your Future[®]

Guide to Life after High SchoolSM

Help Your Students Get Ready for the Future

As an educator, you impact the future every day. You already do a lot to help prepare your students for the future, but now you can do more – even with limited time, staff, and financial resources – with Mapping Your Future’s free **Guide to Life after High School** program.

The **Guide to Life after High School** is an online education program at MappingYourFuture.org/GuideToLife. It covers a variety of life skills, college preparation, financial aid, and financial literacy topics. There are four different versions of the guide, one for each year of high school. The freshman guide focuses more on choosing a career and preparing for college (academic and financial), with only an overview of financial aid. The senior guide contains more details about financial aid projects and application procedures.

You can register to participate in the program, ask you students to complete guides*, and then confirm, via a secure portal, that students have completed the assignment. Sign up for an Online Education account at MappingYourFuture.org/G2L/guidesignup.cfm so you can use the **Guide to Life after High School** program now or learn more at MappingYourFuture.org/G2L/aboutguide.cfm today!

Mapping Your Future, Inc. is a 501©(3) charitable nonprofit organization, helping students plan better tomorrows. Based in Sugar Land, TX, Mapping Your Future has, since 1996, consistently empowered students and families with the information and services they need to accomplish their career and higher education goals, as well as manage their finances. For more information about Mapping Your Future, visit us at MappingYourFuture.org or contact us at services@mappingyourfuture.org

**To complete an interactive guide, students must be at least 13 years of age. In addition, you must elect to participate. Students under the age of 13 or whose school/educator doesn't participate are able to read printable versions of the guide.*
