Save some time!

Before your school disburses your Federal TEACH Grant, regulations require you to complete a counseling session. The counseling session provides information about the terms and conditions of a TEACH Grant service agreement, as well as the rights and responsibilities that apply if your TEACH Grant is converted to a loan.

Mapping Your Future Online Student Loan Counseling allows you to fulfill the entrance requirement anytime, anywhere – all at the convenience of your computer.

Mapping Your Future protects counseling data via a secure web server and the use of password protection. At the end of online counseling, you will enter information on a secure form. Your school then retrieves this information from a secure, password-protected site.

This process takes, on average, 30 minutes.

You will need the following information:
• Your Social Security number
• Your driver’s license number, if applicable

You may need the following information:
• Name, address, telephone number, and employer for your parent
• Name, address, telephone number, and employer for your spouse, if applicable
• Names, addresses, telephone numbers, and employers for two references residing at different addresses
• Name, address, telephone number, and employer for your next of kin

Complete TEACH Grant initial and subsequent counseling

2. Click on the “complete Online Student Loan Counseling” link on the left.
3. Click on the “TEACH Grant initial and subsequent” link.
4. Complete the steps to select your school, read the content and answer questions, and complete the student form.
5. Print the confirmation page (it has your rights and responsibilities) or note the confirmation number for your records.
